This second conference is the occasion to focus on the changes needed to implement new instruments and reflect on the opportunities for innovation.
**INTRODUCTION**

**FOCUS & OBJECTIVES**

In a very practical way this conference aims to help you with the changes needed in terms of: (1) **Programming & contracting**, (2) **Governance & management**, (3) **Verification & audit functions** to achieve effectively the implementation phase of your programme.

The conference concentrates on the **following objectives:**

- Screening concrete conditions of new instruments in the context of 2014+
- Assessing the possibilities to include these new instruments in programmes, calls and management and control systems
- Defining the steps to be taken to implement JAP, CCLD, ITI with or without Commission approval
- Cross-checking the experiences between Member States
- Fine tuning the corresponding documents

Among many special guests, experts Franck Sottou, Colm Dunne, Richard Harding, Susanne Voltz and Audrius Zabotka will lecture the conference.

It will be divided into 3 workshops dedicated to each instrument:

1. The better and concrete use of **Financial Instruments** (detailed agenda)
2. The new **Territorial dimensions** : integrated development (detailed agenda)
3. The “**simplified costs**” and how to address it step-by-step (detailed agenda)

Each group will be limited and moderated by 2 or more experts. Please, when applying, select the workshop/instrument of your choice for the 2 days.

**It is a special occasion...**

...to speak with **high-level speakers** and independent experts from all over Europe, experienced in a wide range of management and control systems, programmes and Member States.

...and to **exchange experience** with your colleagues from other Member States.

...during this **crucial negotiation time** before final adoption by Commission of your Operational Programme.

**3 TOPICS**

**New Regulations for the 2014-2020 programming period** is adopted since 2013. Negotiation period is on going.

New Regulations for the 2014-2020 programming period introduce a **new flexibility of instruments** related to territorial, financial and simplification of costs dimensions. Changes are needed to implement such instruments...

Act I, took place in October 2013, in Munich, focused on the use of new instruments and gathered 100 high level EU Funds practitioners from all EU Member States. This 2-DAY conference, “Act II” is dedicated to the **Concrete Implementation Steps of these instruments**.
