 ETCP SEMINARS 2025 

PARIS

mes results and milestones Right

KEY LEARNING OBJECTIVES

Enhance your professional skills with our comprehensive training

Improve your skills

Identify your responsibilities and define specific issues and opportunities of improvement to select and monitor Project and Programme milestones in a modern way: outputs-results-based approach

EU and National Plans

Apply the skills and the techniques not only to EU funds but also to all National Plans in particular to ensure better monitoring and evaluation and risks management

Concrete situations

Participate to role play with colleagues to test in concrete situations of selection and verification the rooms for manoeuvre and ways to focus on essential elements and best practices from all over Europe

Milestones and indicators

Maintain open and transparent communication, and be prepared to provide detailed documentation and reporting to the public and authorities about Milestones and Indicators

Project and finance officers

Make integration of the administrative, technical and financial dimensions altogether to make more effective and efficient work at the level of the operation. Improve team work and general accountability

Use of AI options

Explore the integration of AI in your daily job and to ensure staff have the necessary skills and knowledge to use AI effectively

Hands-on approach with practical templates and real-world examples
